

THE SCHOOL OF THEORETICAL MODELING
1629 K St NW s 300 Washington DC 20006
Phone: 240 381 2383 email: info@schtm.org
www.schtm.org

CAPABILITY STATEMENT

The School of Theoretical Modeling is a new institution for research and education located in Washington, DC. It is woman owned small business company incorporated in State of Maryland in 1998.

Company Principals Natalya Kurochkina, Ph.D., Director

Products and services

Education: Graduate and Undergraduate Semester and Summer Courses, Courses for Professional Development, Test Preparation Courses.

Research: Basic and Applied Science, Biomedical Research, Consulting in Collaborative work, Contracts, Protein Modeling, Drug Design, Engineering

Technology: New technologies for protein modeling and structure prediction of proteins, development of data base/software for transportation safety and accounting; algorithms development

Contact information

Natalya Kurochkina, Ph.D., Address: 1629 K St NW Washington DC 20006, Phone: (240) 381-2383 , e-mail: info@schtm.org , web site: www.schtm.org

Company designations

DUNS: 797874802 EIN: 52-219-2455 NAICS codes: 541712 Research and Development in the Physical, Engineering, and Life Sciences

Facilities and equipment

Office and teaching location: 1629 K street, NW, s. 300, Washington DC 20036

Property in development: Captain's Corridor Greenbackville VA 23356

Books, Courses, Lab Equipment, Computers and Software

Capabilities

Teaching, Course Development, Research, New Emerging Technologies for transfer and development, Improvement of existing technologies, Algorithm development, Transcriptomics, bioinformatics, toxicology, Protein modeling

Past Performance

NIH, DOT, American Red Cross
